# Leaderboard-Update (16.10.2025)

Rechts das aktuelle LMArena-Leaderboard für die Kategorie German mit Blick auf die besten open-weights-Modelle (sowie ausgewählte proprietäre Modelle).

## Bemerkenswert:

- **GPT-4.5-preview** wieder an der Spitze, knapp gefolgt von **Gemini-2.5-Pro** und letztem Spitzenreiter **claude-opus-4-1**
- **Kimi-k2-0905-preview** (kimi-update) löst **Qwen3-235B-A22B-instruct-2507** als bestes open-weights Modell für deutsche Sprache ab
- **Longcat-flash-chat** (MoE: 560b total, <31.3b active) neu
- **Gemma-3-12B-it** liegt nun wieder vor **Gemma-3-27B-it**.
- Fliegengewicht **Gemma-3n-e4b-it** liegt unverändert vor OpenAI's **gpt-oss** und hinter **Qwen3-32b**
- Ausgewiesenes Schlusslicht ist **qwen1.5-4b-chat** (993)

# StormtrooperVlogs (Veo3)

Prompts für VE03 lassen sich generieren von ChatGPT über Prompts wie diesen hier:

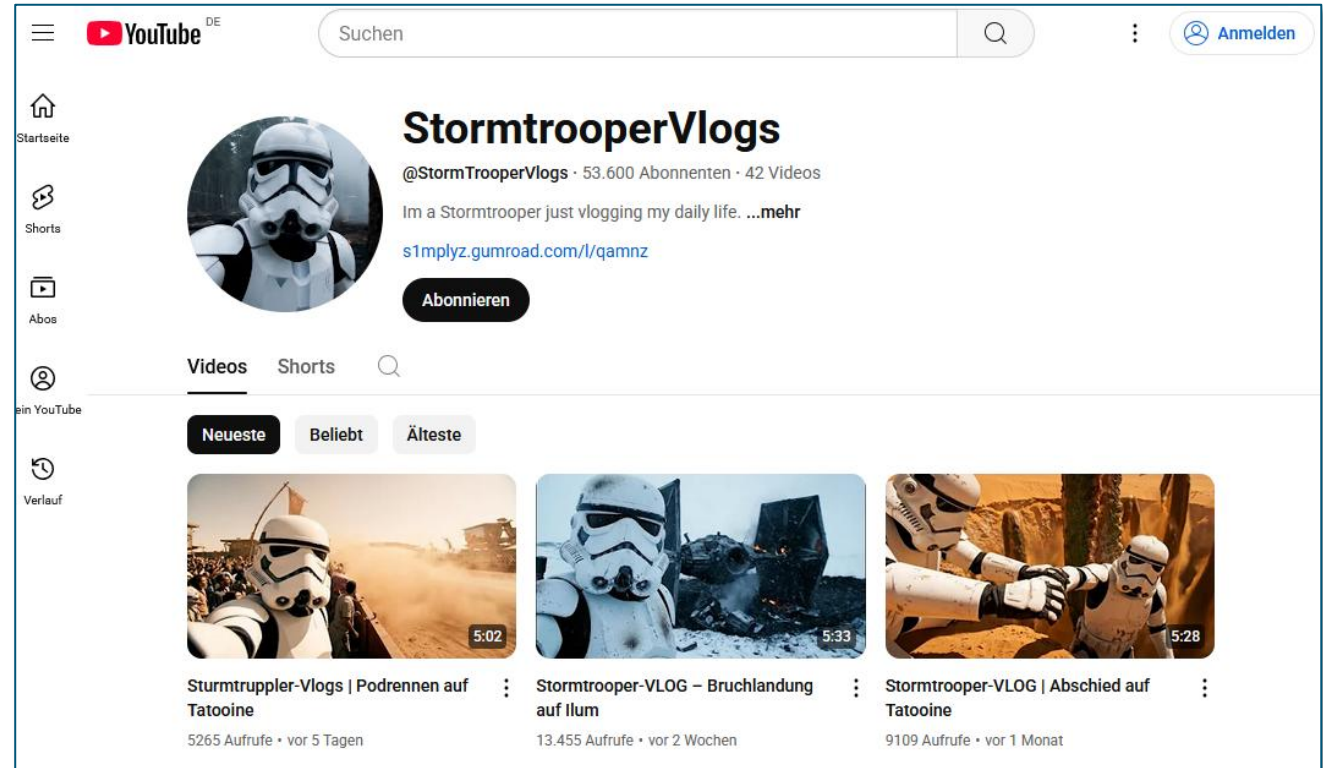

*Write a short script for a Stormtrooper vlog. It should resemble a selfie video and capture a chaotic or funny moment from the Stormtrooper's daily life. The tone should be light and cinematic.*

*\*Guidelines:\**

- The Stormtrooper should be wearing his helmet.
- The script should describe a short scene of about 8 seconds.
- Give the impression that something went wrong (funny or dramatic).
- Include some light-hearted dialogue or inner thoughts.

*Create a new script for generating a Stormtrooper video, but something like this: A Stormtrooper films himself behind a supply crate during a battle. Blaster fire echoes nearby. He raises his weapon and slams it sideways. "Blaster jammed. Again. I swear, that thing hates me." He peers over the crate, ducks, and then looks at the camera. "Greg just ran by without his pants. I don't know what's going on."*

AI has automatically improved your prompt

The video is a first-person perspective from the viewpoint of a large, humanoid robot navigating through a chemical plant. The robot is equipped with a camera mounted on its head, providing a view of the surroundings. The environment is industrial, with large metal structures and shelves filled with various boxes and supplies. The robot is seen moving forward, with its camera capturing the scene from a height of about 1 meter above the
